

IF YOU HAVE COWS, YOU NEED...

- Fight Bac is the best disinfectant for: teats post milking, newborn calf navels, cuts and wounds, injection sites and udder rot (when nothing else works).
- Used on the most valuable cows in the world - walk the barns at World Dairy Expo and ask why more than 90% of exhibitors use Fight Bac on their best cows.
- It's cost effective - lower cell counts, treatments costs and cull rates. Cows stay in the herd longer and are more productive.

Fight Bac[®]

The smart way to disinfect teats.
